

# ANBEFALTE AKSJER

## Tre endringer

Verdien av porteføljen var opp med 0.2% fra mandag formiddag forrige uke til mandag formiddag denne uken. Til sammenligning var OSEBX-indeksen i samme periode opp 2.7%. Så langt i 2023 er porteføljen opp 6.5%, mens OSEBX-indeksen i samme periode er opp med 6.2%. Denne uken tar vi Frontline ut, mens Borr Drilling og SATS kommer inn.

**Porteføljeutvikling.** Forrige uke ble den nest svakest for året så langt relativt til OSEBX indeksen. Et fall på 6.6% for Frontline var den viktigste forklaringen, mens Protector og Orkla begge falt med 1.3%. Equinor var ukens vinner med en oppgang på 4.0%, etterfulgt av Aker BP (+3.7%) og SR-Bank (+1.8%).

**Vi tar Frontline ut av porteføljen.** Vi tok Frontline inn i porteføljen for fire uker siden i forkant av det som normalt er en periode med rateoppgang for stortank. Etter en god start falt ratene forrige uke, noe som svekker grunnlaget for at vi tok aksjen inn. Det er uklart for oss om dette bare er en kortsiktig nedgang eller et signal om at sesongoppsvinget blir svakere i år. Siden dette er en veldig volatil aksje, velger vi av hensyn til risikostyringen å sikre gevinsten og ta den ut. Vi utelukker ikke at den kan komme inn igjen om kort tid dersom det viser seg at markedet begynner å stramme seg til.

**Borr Drilling og SATS kommer inn.** Borr Drilling har hatt en svak periode etter noe skuffende guiding ved Q2-rapporteringen, men vi synes nedgangen relativ til oljeprisen er ufortjent stor. SATS rapporterte gode Q2-tall og disse ga oppjusteringer i konsensusestimaterne og reduserte samtidig balanserisikoen. Begge aksjene har et positivt kursmomentum og en attraktiv prising etter vår mening.

**Porteføljen består av følgende aksjer:** Aker BP, Borr Drilling, Equinor, Mowi, Orkla, Protector Forsikring, SATS og SR-Bank. Begrunnelsen for hvert enkelt selskap er oppsummert mer i detalj fra side 3 i denne rapporten.

I vår beregning av avkastning baserer vi inn- og utkursen på åpningskursene mandag morgen. Porteføljen er likevektet og ukens avkastning reflekterer dermed et samlet gjennomsnitt av kursutviklingen for alle aksjene gjennom uken. For selskaper på OBX-indeksen bruker vi gjennomsnittlig kurs frem til kl. 10.00 på mandag, mens vi for andre aksjer bruker gjennomsnittet frem til kl. 12.00. Avkastningen for OSEBX beregnes fra kurs kl. 10.00 mandag.

## Aker BP (AKRBP)

- Tilbudssiden for olje kan bli stram i en lengere periode. OPEC har vist at de er proaktive med å kutte produksjonen og det er i tillegg slutt på lagertappingen i USA. Dette gir en asymmetrisk risikoprofil med støtte på nedsiden, men samtidig ingen begrensinger på oppsiden.
- Selv om det politiske presset mot oljeselskapene for et grønt skifte på kort sikt er noe redusert tror vi at den lange horisonten utbyggingen av nye felt krever, og usikkerheten dette har skapt, kommer til å begrense nye investeringer i tiden fremover. Vi tror resultatet av dette er at utbyttebetalinger blir prioritert fremfor store investeringer.
- Sektoren prises på svært lave P/E-multipler og med en høy direkteavkastning, noe som indikerer at markedet ikke legger til grunn at de høye olje- og gassprisene det siste året vil vedvare.

**Mowi (MOWI)**

- Kutt i investeringer som følge av grunnrenteskatten kan gi mindre volumvekst i Norge og bedre priser på laks. Med virksomhet i Norge, Skottland, Irland, Chile og på begge sider av Canada er Mowi mer geografisk diversifisert enn de øvrige større selskapene innenfor sektoren. På våre estimater har selskapet rundt 43% av inntjeningen fra oppdrettsaktivitet i Norge, mens denne andelen for de øvrige større norske aktørene er estimert å ligge på 64-92%.
- Med grunnrenteskatt inkludert i konsensusestimaterne synes vi prisingen er attraktiv med en P/E på 12x og en direkteavkastning på 5%. Inntjeningen innen sjømat er fremdeles noe mer defensiv (mindre syklisk) enn gjennomsnittet på Oslo Børs, noe som etter vår mening burde tilsi at sektoren fortjener en høyere multipl.
- Høyre har varslet at det kan bli endringer eller en reduksjon i grunnrenteskatten hvis de kommer i regjering etter neste valg. Basert på de siste meningsmålingene ser dette ganske sannsynlig ut.

**SR-Bank (SRBNK)**

- SR-Bank rapporterte solide Q2-tall, inkludert tilbakeføring av tidligere bokført utlånstap. Dette bidro til at ROE endte på 14.6%.
- Med P/E-multipl på 8x, Pris/bok på 1.2x og en direkteavkastning på 6 prosent er prisingen etter vår mening attraktiv.

- Til tross for oppjustering av forventet inntjening falt aksjen i 2022, men har i år utviklet et positivt kursmomentum igjen. Når et positivt kursmomentum bygger på stigende inntjening og moderat prising øker dette tilliten til at oppgangen er velbegrunnet og kan fortsette videre.

## Orkla (ORK)

- Orkla rapporterte en sterk Q2-rapport og har dermed opprettholdt den positive trenden for inntjeningsestimater som startet etter Q1-rapporten.
- Orkla er en defensive aksjer hvor inntjeningen blir mindre påvirket av en svakere vekst i økonomien enn gjennomsnittet på Oslo Børs. Det øker diversifiseringen for porteføljen.
- Vi mener prisingen er relativt attraktiv med en P/E multiplum på 14x og en direkteavkastning på 4%.

## Protector Forsikring (PROT)

- Protector har en lønnsom nisjestrategi innenfor forsikring med hovedfokus på kunder i bedriftsmarkedet og offentlig sektor. Selskapet har en sterk investeringshistorikk, men med en noe høyere risikoprofil enn for eksempel Gjensidige (15% aksjeallokering sammenlignet med 7% for Gjensidige).
- Til tross for årlig premievekst på ~18% siden 2005, er det fremdeles potensial for ytterligere vekst både i Norden og Storbritannia, hvor de har sin eksponering i dag.
- Protector prises til 11x P/E med en direkteavkastning på 6%, noe vi mener er attraktivt. Dette støttes av en positiv estimaterevideringstrend og positivt kursmomentum.

**Borr Drilling (BORR)**

- Etter litt svakere EBITDA guiding for 2023 enn ventet har Borr Drilling hatt en svakere utvikling enn oljeprisen og andre oljeserviceaksjer de siste ukene. Dette er etter vår mening hovedsakelig en forskyvning av inntekter og helt udramatisk.
- Vår årlige spørreundersøkelse blant oljeselskapene indikerer at økt fokus på kontantstrøm i oljeselskapene gjør at det blir mindre svingninger i etterspørselen enn det som har vært vanlig tidligere. Høy utnyttelsesgrad og økende ordreserver kan på mellomlangt sikt gi solid inntjeningspotensial for riggbransjen.
- Borr Drilling begynner å nærme seg en fase hvor utbytte kan bli aktuelt. De må først reforhandle gjeldsbetingelsene, men når virksomheten nå generer en sterk kontantstrøm tror vi ikke at dette blir et problem. Ser vi tilbake til forrige syklus, fikk Seadrill et solid kursløft da de begynte å betale utbytte.

**SATS (SATS)**

- Solid Q2-tall bidrar til en oppjustering i konsensusestimater og, enda viktigere, reduserer bekymringer relatert til en svak balanse. Selskapet forventer at de er innenfor lånebetingelsen om nettogjeld til EBITDA på mindre enn 4x innen utgangen av året. Dette reduserer utvanningsrisikoen for aksjonærene.
- Aksjekursen har etablert en positiv trend som bekrefter fremgangen i de fundamentale forholdene.

- Vi mener prisingen er attraktiv med en P/E multipl på 11x. Sterk inntjeningsvekst gjør at denne faller til 8x året etter.

## Important Information

This report has been prepared by DNB Markets, a division of DNB Bank ASA. DNB Bank ASA is a part of the DNB Group. This report is based on information obtained from public sources that DNB Markets believes to be reliable but which DNB Markets has not independently verified, and DNB Markets makes no guarantee, representation or warranty as to its accuracy or completeness. This report does not, and does not attempt to, contain everything material which there is to be said about the Company. Any opinions expressed herein reflect DNB Markets' judgement at the time the report was prepared and are subject to change without notice.

Any use of non-DNB logos in this report is solely for the purpose of assisting in identifying the relevant issuer. DNB is not affiliated with any such issuer.

This report is for clients only, and not for publication, and has been prepared for information purposes only by DNB Markets, a division of DNB Bank ASA.

This report is the property of DNB Markets. DNB Markets retains all intellectual property rights (including, but not limited to, copyright) relating to the report. Sell-side investment firms are not allowed any commercial use (including, but not limited to, reproduction and redistribution) of the report contents, either partially or in full, without DNB Markets' explicit and prior written consent. However, buy-side investment firms may use the report when making investment decisions, and may also base investment advice given to clients on the report. Such use is dependent on the buy-side investment firm citing DNB Markets as the source.

## Risk warning – generally high risk

The risk of investing in financial instruments is generally high. Past performance is not a reliable indicator of future performance, and estimates of future performance are based on assumptions that may not be realised. When investing in financial instruments, the value of the investment may increase or decrease, and the investor may lose all or part of their investment. Careful consideration of possible financial distress should be made before investing in any financial instrument.

## Recommendations and conflicts of interest

Readers should note that DNB Markets could be providing – or could in the coming three months or thereafter seek to provide – confidential investment banking services or other services to companies mentioned in this note.

Please see DNB Markets' website ([dnb.no/disclaimer/MAR](http://dnb.no/disclaimer/MAR)) for information in accordance with Market Abuse Regulation (MAR). This website contains information about our published investment recommendations and potential conflicts of interest.

## Legal statement

This Report is a research report within the meaning of Regulation (EU) NO 596/2014 on market abuse (Market Abuse Regulation), and has been prepared in accordance with rules set out in relevant industry standards issued by The Norwegian Securities Dealers Association. This Report has been prepared as general information and is therefore not intended as a personal recommendation of particular financial instruments or strategies, and does not constitute personal investment advice as defined in the Norwegian securities trading act (Norwegian verdipapirhandeloven). The analyst hereby certifies that (i) the views expressed in this report accurately reflect that research analyst's personal views about the company and the securities that are the subject of this report, and (ii) no part of the research analyst's compensation was, is, or will be, directly or indirectly, related to the specific recommendations or views expressed by that research analyst in this report. DNB Markets employees, including research analysts, may receive compensation that is generated by overall firm profitability. Confidentiality rules and internal rules restricting the exchange of information between different parts of DNB Markets/DNB Bank ASA or the DNB Group are in place to prevent employees of DNB Markets who are preparing this report from utilizing or being aware of information available in the DNB Group that may be relevant to the recipients' decisions. DNB Markets and the DNB Group have incorporated internal rules and regulations in order to avoid any potential conflicts of interest.

The Report has been prepared by DNB Markets, a division of DNB Bank ASA, a Norwegian bank organized under the laws of the Kingdom of Norway and under supervision by the Norwegian Financial Supervisory Authority, The Monetary Authority of Singapore, and on a limited basis by the Financial Conduct Authority and the Prudential Regulation Authority of the UK, and the Financial Supervisory Authority of Sweden. Details about the extent of our regulation by local authorities outside Norway are available from us on request.

It is issued subject to the General Business Terms for DNB Markets and information about the terms is available at [www.dnb.no](http://www.dnb.no). ## Additional information for clients in Singapore

The report has been distributed by the Singapore Branch of DNB Bank ASA. It is intended for general circulation and does not take into account the specific investment objectives, financial situation or particular needs of any particular person. You should seek advice from a financial adviser regarding the suitability of any product referred to in the report, taking into account your specific financial objectives, financial situation or particular needs before making a commitment to purchase any such product. You have received a copy of the report because you have been classified either as an accredited investor, an expert investor or as an institutional investor, as these terms have been defined under Singapore's Financial Advisers Act (Cap. 110) ("FAA") and/or the Financial Advisers Regulations ("FAR"). The Singapore Branch of DNB Bank ASA is a financial adviser exempt from licensing under the FAA but is otherwise subject to the legal requirements of the FAA and of the FAR. By virtue of your status as an accredited investor or as an expert investor, the Singapore Branch of DNB Bank ASA is, in respect of certain of its dealings with you or services rendered to you, exempt from having to comply with certain regulatory requirements of the FAA and FAR, including without limitation, sections 25, 27 and 36 of the FAA. Section 25 of the FAA requires a financial adviser to disclose material information concerning designated investment products which are recommended by the financial adviser to you as the client. Section 27 of the FAA requires a financial adviser to have a reasonable basis for making investment recommendations to you as the client. Section 36 of the FAA requires a financial adviser to include, within any circular or written communications in which he makes recommendations concerning securities, a statement of the nature of any interest which the financial adviser (and any person connected or associated with the financial adviser) might have in the securities. Please contact the Singapore branch of DNB Bank ASA at +65 6212 6144 in respect of any matters arising from, or in connection

with, the report. The report is intended for and is to be circulated only to persons who are classified as an accredited investor, an expert investor or an institutional investor. If you are not an accredited investor, an expert investor or an institutional investor, please contact the Singapore Branch of DNB Bank ASA at +65 6212 6144. We, the DNB group, our associates, officers and/or employees may have interests in any products referred to in the report by acting in various roles including as distributor, holder of principal positions, adviser or lender. We, the DNB group, our associates, officers and/or employees may receive fees, brokerage or commissions for acting in those capacities. In addition, we, the DNB group, our associates, officers and/or employees may buy or sell products as principal or agent and may effect transactions which are not consistent with the information set out in the report.
